Game: Happy Families (Go Fish)

Preparation: Cut out and glue the cards onto heavy paper, lamination optional.

To play: Shuffle the cards. Deal each player four cards and put the remaining pile of cards face down in the middle. Players try to assemble families of four cards by asking the other player(s) for the card they want by name (example: "Do you have "hen" from the H family?") If the player gets what s/he requested, she gets another turn. If not, the other player says, "No, Go Fish" and the first player draws a card from the pile. Lay down each family of four cards as it is assembled; the learner should read the 4 words and state their meanings. Play until all the cards are laid out in families. The player with the most families wins. (Try to let the learner outsmart you.)
